PROJECTS

Code Club — *Full-Stack Developer*

February 2021 - March 2021

- Architected an event meet-up PWA built with React; used Google Calendar API and Amazon AWS Lambda serverless platform to fetch events.
- Developed with TDD techniques, FP & OOP paradigms, and data visualization.

myFlix DB — *Full-Stack Developer*

December 2020 - January 2021

- REST API created with MongoDB Atlas, for a future online movie database application. Constructed endpoints in server-side code for all CRUD requests.
- Established security processes including password hashing encryption, JWT authentication and CORS.

EDUCATION

CareerFoundry, Remote — *Full-Stack Web Development Certificate*

November 2020 - June 2021 (Expected)

- Created various projects as a full-stack developer; handled all stages from planning to final deployment, and through this developed capability in HTML, CSS, JavaScript, jQuery, React and React Native.

SheCodes, Remote — *Introduction to Coding Certificate*

September 2020 - October 2020

- Created functional app mockups through studying the fundamentals of web development.

University of Calgary, Calgary, AB — *Bachelor of Arts*

September 2012 - April 2016

Linguistics Major, Management and Society (Business) Minor

- Studied data collection and optimization to further extrapolating patterns and rulesets.
- Developed interpersonal, creative and presentational skills; organized and delegated sections of projects to individuals based on abilities to create cohesive teams.

EXPERIENCE

Franworks, Calgary, AB & Remote — *HR & Compliance Administrator*
April 2019 - November 2020

- Oversaw departmental data collection and document editing, auditing & legal researching.
- Analyzed data for multiple departments with little background knowledge given and created reports summarizing findings.
- Led all licensing and Worker's Compensation accounts in North America; coordinating with governmental agencies, remote representatives.
- Demonstrated ability to coordinate with different companies, update with kanban management, learn new systems without guidance and utilization of data analysis to improve processes.

Franworks, Calgary, AB & Remote — *Receptionist/Office Manager*
March 2018 - November 2020

- Demonstrated ability to handle multiple department's needs, represent a brand to external clients, and take leadership roles for neglected projects.

The Reading Foundation, Calgary, AB — *Clinician*
May 2015 - April 2017

- Taught students from a wide variety of cultural and language backgrounds; implemented behavioral management for students with learning disabilities.
- Prepared program by referencing clinical notes during sessions and external resources.
- Demonstrated ability to work in a large team to tailor programs to individual files, strategizing cooperatively on cases, and making continuous improvements to lessons without advanced notice.

INTERNATIONAL EXPERIENCE

Private Tutor — *Paris, France*
September 2017 - December 2017

- Demonstrated ability to take on short-term positions and reach goals within deadline.
